

AXYGEN

A Corning Brand

Every Laboratory !!! Need !!!

Axygen® Gel Documentation Systems

- ✓ Auto exposure
- ✓ Long-life dual wavelength transilluminators
- ✓ Exceptionally high resolution (5.4 MP) camera
- ✓ Blue light for use with EtBr replacement dyes to prevent damage to DNA that will be excised for subsequent analysis.

Axygen® MaxyGene II Thermal Cycler

“Better Than Gradient”
with Six Peltier blocks

Axygen® Axyspin Mini Plate Spinner Centrifuge

Axygen® IMAG™ Handheld Magnetic Beads Separation Devices

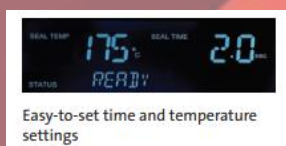

- ✓ IMAG MSDs accommodate single tube or 96-well microplate formats
- ✓ Fast separation time
- ✓ Strong magnets enable less than 30-second separation times
- ✓ Nucleic acid purification and clean-up
- ✓ Cell-based assays
- ✓ Antibody and protein purifications

Axygen® Axyspin Refrigerated Microcentrifuge

- ✓ Powerful refrigeration system cools to 4°C in 8 minutes
- ✓ 24 x 1.5/2.0 mL aluminum rotor included
- ✓ Exceptionally quiet and compact

Easy-to-set time and temperature settings

Axygen® PlateMax® Semi-automatic Plate Sealer

- ✓ Accepts a wide range of microplates and heat seals
- ✓ Large digital display shows all operating parameters
- ✓ Adjustable sealing temperature
- ✓ Precise temperature, timing, and pressure for consistent sealing
