

Clavies® Biohazard Bag Holders

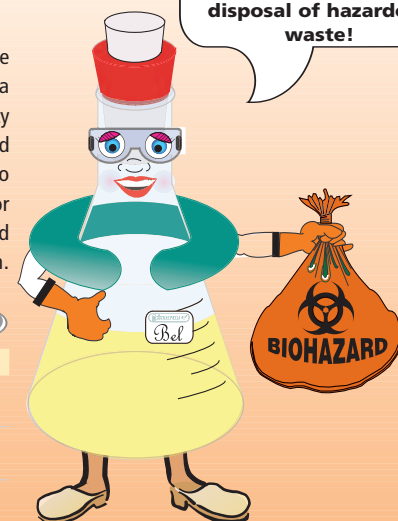

Keep Biohazard Disposal Bags Open and Ready to Use with These Economical Bag Holders.

Bag is securely supported on a stainless steel wire frame and polypropylene bottom, which also serves as a containment tray in the event of bag leakage. Tray is safety orange in color for easy identification as a biohazard containment system. Autoclavable at 121°C (250°F) to maintain sterility. The small bag holder is ideal for benchtop use. These lightweight units are shipped unassembled for more economical transportation. Assembly takes only minutes and is permanent.

New Clavies® Biohazard Bag Holders are great for keeping bags open wide and for easy disposal of hazardous waste!

Biohazard Waste Container

Easy Open Top Adds Protection, Holds Bag Securely

This hi-impact polypropylene waste container has a hinged top cover and will hold a plastic biohazard waste disposal bag firmly, even when it is heavily loaded. A 61 x 76.2cm (24 x 30") bag fits perfectly with enough overhang to be held securely in place by snapping the cover onto the rim. The container holds 30 liters (32qts/8gallons) and measures 39.3 x 22.9 x 42cm H (15 1/2 x 9 x 19"H). When the bag is full, the cover is removed and the bag is easily lifted out for disposal. The cover features a standard Biohazard symbol.

Shipping weight 1.4kg (3.2lbs). **Per each, 6 per case.**

Bench-Top Disposal System

Hinged Top for Convenience and Safety

Perfect for small items like pipette tips, needles and microcentrifuge tubes, this compact bench-top disposal system has a hinged, swinging lid that allows easy access, yet contains odors. The top is securely placed onto the container lip and holds a 25 x 25cm (10 x 10") autoclavable biohazard disposal bag. Smooth polystyrene surface with a biohazard label is easy to clean. Top diameter is 15cm (6"), height 19cm (7 1/2"). Shipping weight .45kg (1lb). **Per each, 12 per case.**

Poxygrid® Bag Holders

Keep Biohazard Bags Open and Ready for Filling

Just place a biohazard bag into the sturdy wire holder and stretch the bag over the top ring. A separate hooked ring rests over the top to keep the bag in place. Circular shape keeps bags wide open for easy access. Made from bright biohazard orange colored epoxy-coated wire.

Clavies® Biohazard Autoclave Gloves

Unload Your Autoclave Safely

Soft, pliant, all-cotton terry cloth Clavies® Gloves are superb for handling hot objects out of the autoclave or oven. They are also excellent for use where other heat protection is needed whether in the lab, school or industry. Heat resistant up to 232°C (450°F), they replace hazardous asbestos gloves. Gauntlets in two lengths provide wrist and forearm protection, and the bright orange color offers high visibility. Machine wash, tumble dry. Note: Gloves are not water proof and cannot be used to handle dry ice. **Per pair, 12 pair per case.**
